

LIMONA PRO

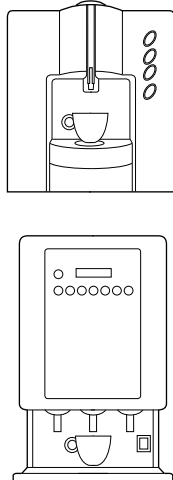

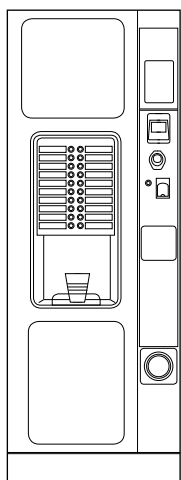

Specifically designed for OCS - HO.RE.CA - VENDING

Limona Filter utilises ceramic microspheres that act on calcium bicarbonate, forming **stable limescale microcrystals which can no longer dissolve** in water and are filtered from the flow in a second stage. The outgoing flow is **deprived of its CaCO₃ load** but **remains rich in all other minerals** that endow water with **good taste and aroma**.

ECO-SUSTAINABLE: Chemical free! Limona Filter exploits the natural molecular properties of water. The system is totally eco-friendly, without restrictions on disposal. without restrictions on disposal.

INSTALLATION OF LIMONA FILTER IS

SIMPLE: Compact, ergonomic format and in a unit of 500 grams!

FAST: Integrated quick fitting systems.

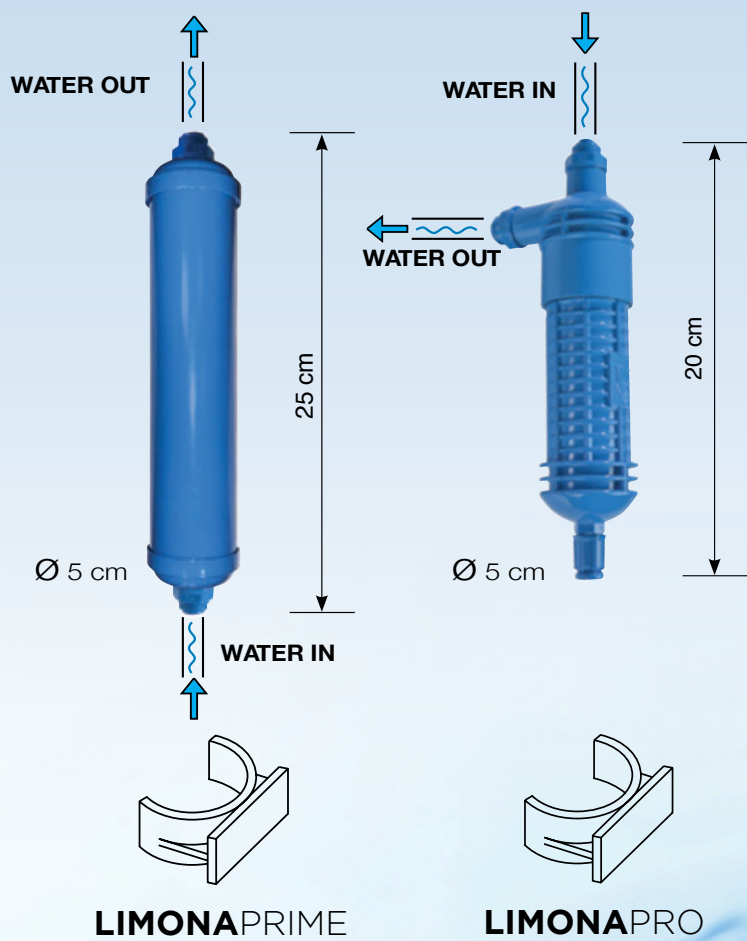

VERSATILE: Highly adaptable! Limona Filter well fits in any size of vending machine, small or large.

SAFE: Limona is certified and guaranteed through laboratory testing, for **perfect and constant function** over time.

GARANTEE: Limona is **100% MADE IN ITALY**

CONVENIENT: The Limona Filter operating system guarantees long life, **high and constant performance**, reduced dimensions and **reduction of operating costs**.

	CAPACITY	MAX PRESSURE	PH	MAX WATER TEMP.	DIMENSIONS	USES	TREATMENT METHOD
LIMONAPRO	4.000 Liters 80.000 cycles	7 Bar	6,5 - 9,5	40°	Ø 50 mm 200 mm height	OCS ho.re.ca vending machines	Final outlet water softening
LIMONAPRIME	8.000 Liters 160.000 cycles	7 Bar	6,5 - 9,5	40°	Ø 50 mm 250 mm height	OCS ho.re.ca vending machines	Final outlet water softening

- Total protection from scale effects
- Innovative
- High performance
- Compact and easy to install
- Eco friendly
