

Specifically designed for
OCS - HO.RE.CA - VENDING

**INNOVATIVE CONDITIONER HIGH PERFORMANCE,
COMPACT, ECO-FRIENDLY, EASY TO INSTALL**

W.F. Italy, leader in the water treatment sector for **35 years**,
presents the innovative **LIMONA FILTER** project, the
ECO-FRIENDLY solution for water hardness

Limona Filter utilises ceramic microspheres that act on calcium bicarbonate, forming **stable limescale microcrystals which can no longer dissolve** in water. The outgoing flow is **deprived of its CaCO₃ load but remains rich in all other minerals** that endow water with **good taste and aroma**.

An example of installation

LIMONAPRO

LIMONAPRIME

- **MAXIMUM TEMPERATURE INWARD WATER:** 40 °
- **CAPACITY:** from 4.000 to 8.000 liters / 80.000 to 160.000 cycles
- **DISPOSAL:** inert compound, un-differential residual
- **CHEMICAL FREE!**
- **100% MADE IN ITALY**
